

Service Portal: our smartest tool ever!

The Holmatro Service Portal offers you 24/7 access to an intelligent online system with efficient resources designed to easily manage all your rescue tools. How about:

Tool management

Insight into the location and service status of all the rescue tools in your organization, anywhere and at any time. Easily register and monitor your Holmatro tools as well as other brands of tools.

Maintenance and inspection management

Accurate insight into the maintenance and inspection history of all the rescue tools in your organization. This information will help you and your dealer to timely schedule new service appointments, optimizing the deployability and reliability of your tools.

Documentation and information

You receive direct online access to all of the available documentation and information for each individual tool. Keeping you up-to-date with the latest user manuals, product specifications and maintenance instructions.

Service requests

An efficient way of managing service requests to your qualified Holmatro dealer online. Requests through the Holmatro Service Portal are designed to be easy-to-use and always go directly to the right person or right department.

The tool for all your tools

With great power comes great responsibility

The great power of Holmatro rescue tools is wielded every single day to help save lives. Having up-to-date insight into the maintenance and inspection status of your tools is therefore crucial. It's all about deployability and reliability, allowing you to concentrate on your vital work as a rescuer. The Holmatro Service Portal has been designed to help you with that. It may very well be our smartest tool ever, offering you unparalleled support.

Service is more important than ever before

When it comes to saving lives, deployment of rescuers and equipment is more important than money. Regardless, more and more organizations are having to cope with budgets that are under pressure. One obvious solution is to extend the life of rescue equipment. Which is why it is becoming increasingly important to perform periodic inspections, preventative maintenance and professional repairs to keep your rescue tools in good condition.

Together with your Holmatro dealer

Your qualified Holmatro dealer is the designated party for inspections, maintenance and repairs of your Holmatro tools. Their service engineers are trained by Holmatro. They work safely and expertly with only the best materials to help keep your tools in top condition. The Holmatro Service Portal enables them to do all of this faster and more efficiently than ever before, without the burden of paperwork. From this point on, inspection reports are automatically generated, linked to the proper tools and stored for you. The only thing you have to do is register your rescue tools on the portal. Your dealer can help you with that.

Saving time and effort

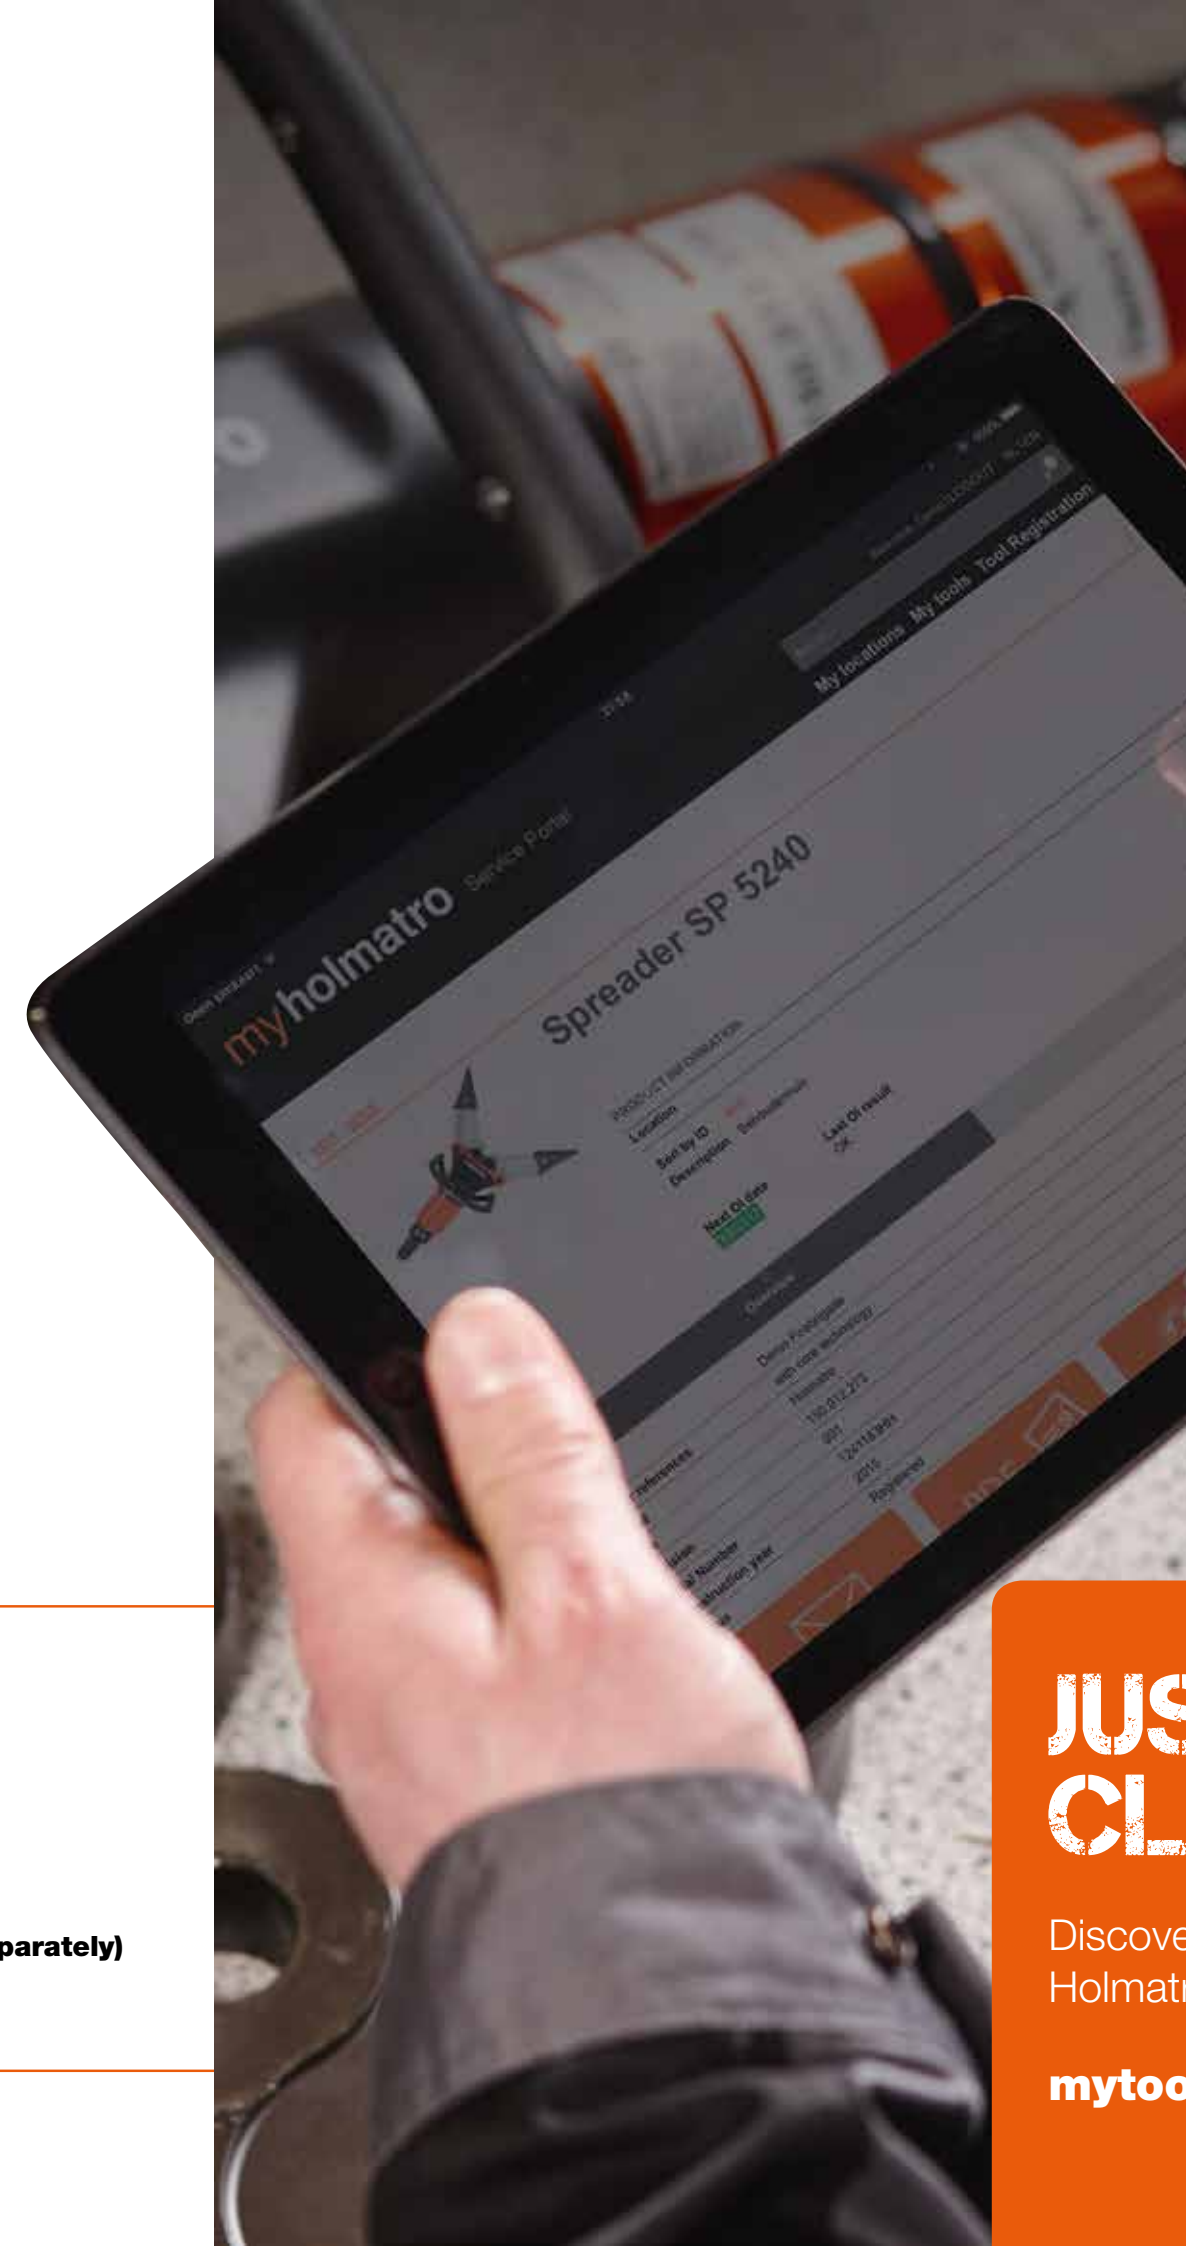

The Holmatro Service Portal is an innovative online tool that gives you the latest insight into the location and service status of all the rescue tools within your organization. Your dealer will contact you as soon as it's time for a new service appointment. Or you can use the portal to send a service request to your dealer yourself, which will be linked to the right tool and get to the right place automatically. It doesn't get any easier than that!

Specifications
